A&R Factory

Artist, producer, singer, and songwriter, Ysa has been a silent heavy hitter, producing music out of her home studio in Nashville. She’s already made a huge impact on the music industry with her songs being placed on the likes of: **Netflix, Hulu, NBC, ABC, CW Plus, MTV , VH1 and Lifetime.**

Pulling influence from her diverse background of Costa Rican and Russian heritage, Ysa grew up in a small beach town in Florida exploring all types of music thanks to her mom from disco to Latin to jazz. Self-taught to play piano, ukulele, guitar, bass, and drums Ysa learned all from Youtube with inspirations from Rihanna, Norah Jones, SZA, and Rolling Stone. After accidentally coming across a music recording class in college, Ysa found a new love for beat making and producing that's where everything took off.

Ysa has also collaborated with audio tech company, OUTPUT, on multiple vocal packs for their plug-in Arcade within the "HOOKED" line.
